The new vision of design offers the opportunity to mix and match different materials and collections in the same place, (such as wood, stone, marble, artifacts, cement, Cotto, metal, etc.) combined with the use of color, which without Doubt creates one of the most current contemporary trends in interior design. Attention to detail creates unique, welcoming and vibrant spaces. The Hued Collection, which houses various materials, can provide materials to create balance and harmony.

Elegant Marbles is a collection composed of the Core White, Silver River, and Savana series that is taking porcelain tiles to another level because of the maximum quality and high dimensions, thus attracting both architects, interior designers, and consumers, who want bright and striking surfaces and large dimensions. Natural and unique stones to places with the practicality of 'full body' porcelain, the Elegant Marbles collection offers a wide range of options for its aesthetic and functional series.

The Royal Marbles Collection family of tiles offers shiny and brisk surfaces thanks to the new Monobody porcelain stoneware portfolio. Available in rectified mosaics, this family presents the Serpeggiante, Tuana, Iceberg, Marrakech, Onyx, Pulpis, Motion, and Ivory series, which stand out for giving a luxurious finish to the spaces.

Garden brings an elite atmosphere to any space, emerging as the perfect match for natural porphyry stone. The series evokes mystical thoughts, its three color alternatives, and the feeling of depth that is achieved through its special manufacturing technology. These tiles can be easily cleaned, despite their non-slip surfaces. They can be used as floor and wall coverings both indoors and outdoors. And they offer excellent results especially around the pool and on the walkways and walls of gardens and terraces.

Simplicity, functionality, and aesthetics are the qualities that star in this series when the durability of porcelain stoneware is combined with the characteristic of a single color of the Mono Porcelain series. It has been designed to generate solutions that meet the requirements of all kinds of places with its super white, beige, dark gray, and anthracite color options. Perfect for projects including banks, restaurants, shops, schools, and shopping malls.

Alhambra Inspired by patterned tiles that are individually made of cement, using different patterns, the series is made up of based modules, edge edges and corner pieces suitable for high traffic areas.

Tiles are becoming an ideal choice for designers who adopt the provincial style.

## Anti-graffiti

**Easy to wipe and clean pollutants like:**

- Crayon
- Graffiti
- Permanent marker
- Board marker

**Resistant to Abrasion**

Living spaces will remain brand new like the first day, after numerous exposure to cleaning chemicals and abrasion.

- Household chemicals. Cleaning liquids (Acidic / Alkaline).
- Bleaching agents.
- Water corrosion.

## Microbial Loading (cfu/ml)

	Start	After 24 hours
E-Coli	5,00E+05	<10
S.Aureus	4,30E+05	<10

• Bacteria population decreases to less than 10 units in 24 hours.  
According to JISZ2801 method.

## Self Clean / Photocatalytic / Outdoor

- Against soot, water marks, dust, fungus, mould, bacteria
- Less maintenance cost
- Always clean&dry outdoor surface

## Anti-bacterial

- Protects both outdoor and indoor, even in poorly lit environment.
- Hygienic; resistant to bacteria, mould and fungus.
